

ST. JUDE MEMORIAL HOSPITAL

DEPARTMENT OF SURGICAL GASTROENTEROLOGY

PATIENT: Vikram Singhania (PT-41908)

ATTENDING DOCTOR: Dr. Rajesh Nair, MS, MCh

DEPARTMENT: Surgical Gastroenterology

ADMISSION DATE: 2026-08-20

DISCHARGE DATE: 2026-08-25

PRIMARY DIAGNOSIS

Symptomatic Cholelithiasis with Chronic Calculous Cholecystitis

PROCEDURE PERFORMED

Elective Laparoscopic Cholecystectomy under General Anesthesia (Date: 2026-08-21)

HOSPITAL COURSE SUMMARY

Patient admitted with recurrent biliary colic. Underwent uneventful laparoscopic cholecystectomy. Post-op vitals stable. Normal bowel sounds returned Day 2. Incision sites clean and dry.

INVESTIGATION SUMMARY

Pre-op USG Abdomen confirmed multiple gallstones. Post-op LFT and CBC within normal limits. Histopathology confirmed chronic cholecystitis without dysplasia.

DISCHARGE CONDITION

Hemodynamically stable, afebrile, surgical incisions healing well, ambulating comfortably.

FOLLOW-UP INSTRUCTIONS

Review in Surgical OPD on 2026-09-02 for suture removal. Maintain low-fat diet for 2 weeks.
